线的表达，线的节奏，线中流露的对生命的柔情交叠转化，
畅想行板节奏被联结于由线构成的空间之后，等待光影的捕捉，
而这正是作品空间中具有鲜活生命力的灵动一笔，
将时间纳入纤维，将气的散于光影！

With expression and rhythm of lines, the tender feeling for life is exposed in changing lines.
The free andante is combined with the space composed of lines,
which is to be captured by light and shadow.
Such structure is a powerful and active touch of such work in space,
so that the time is included into fiber and the verve is spread over light and shadow!
